

***TELL ME ABOUT IT!***

*An Android support forum app by  
Cameron Hui and Megan Friedenberg  
For mobile devices*

## ***THE BREAKDOWN***

- Completely free and anonymous forum targeted towards **sexual harassment** & other issues in high schools and communities
- Input can be added to feeds unique to that area through navigation sensors
- Built using MIT's AppInventor

# ***THE WHY ?***

- Overwhelming numbers of sexual allegations
- Past experiences that ended in being mocked
- **54%** of women experience sexual harassment in their lifetimes

## ***SOME DRAWBACKS***

Possible issues with our app

- Unable to determine genuine vs. fake confessions
  - Which can cause abuse of the app
- Life threatening confessions like suicide may get ignored

# ***FUTURE DEVELOPMENT***

Solving previous drawbacks,  
& improving the experience!

- *Upvoting* of suicide posts
- *Filtering* inappropriate language/hate speech
- *Verifying* an account to avoid excessive fake confessions
